What Industry Needs to Make a Public-Private Partnership Work

Peter Szczepankiewicz - IBM
Eric Ziegast – Internet Systems Consortium
Bruce Roberts, Cubic Consultant, TSN
Upkar Dhaliwal – Mobile / Wireless Consultant

Overview / Background

(discussion items)

Capable workforce / human capital planning

Effective Public / private partnerships (& defined roles)

Affordable / common education / training

Incentives, as profit drives behavior...

Assured “CIP” – critical infrastructure protection - utilities & more

Policy / regulations to *assist* cyber implementation

Legal / guidance to minimize risk / liability (“UL” model)

Easier transition from new capabilities into federal contracts

AND....???

So what REALLY matters / makes a difference???
